DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Title:

The title has been changed to "Electro-optic device having multi-layer conductive layer, method of manufacturing the same, and electronic apparatus".

End of examiner's amendment.

Drawings

2. The drawings were received on 2 May 2005. These drawings are approved by the examiner.

Allowable Subject Matter

3. Claims 2, 5, and 7-10 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the device of claim 2, in particular the amended limitation that the external wiring comprises the underlying conductive layer formed directly on the transparent conductive layer. Claim 2 is therefore allowed, as are its dependent claims 8 and 10. Similarly, the prior art does not disclose the method of claim 5, in particular the amended limitation that there is a step of forming a transparent conductive layer directly on the underlying conductive layer in a second region out of the material-sealed region. Claim 5 is therefore allowed, as are its dependent claims 7 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
